## SUMMARY

---

Proficient in React, Angular, and full-stack development, with expertise in building reusable components, API integration, and scalable solutions. Skilled in delivering high-quality software and collaborating effectively to meet project goals.

## TECHNICAL SKILLS

---

**Key Skills:** React Js | JavaScript | TypeScript | Angular Js | Next Js | Redux Toolkit | Zustand | Material UI | Tailwind Css | Spring Boot | Java | AWS | Git Vitest | Moment Js | Python | Unit Testing | Agile

**Tools:** Visual studio Code | IntelliJ | Visual Studio | Source Tree | Figma

## EXPERIENCE

---

### Tata Consultancy Services - Bangalore

August 2021 – Present

*Ey, GE - Front-end Developer (React and Angular)*

- Developed responsive web applications using **React** and **Angular** to ensure seamless user experiences across devices
- Collaborated with **cross-functional teams** to ensure timely **delivery** of project milestones.
- Developed **standardized** code and reusable functions, **reviewed** the codebase, and resolved issues while assisting the team in **troubleshooting** and **problem-solving**

CFS - Front-end Developer (React)

- Developed custom component, dialog, design dialog and pages for the application
- Collaborated with **clients** to gather requirements and clarify project details for accurate implementation
- Used **JavaScript, TypeScript, Zustand, Vitest, and Tailwind CSS** to improve functionality, testing, and styling.
- Collaborated with designers to develop a responsive design that is compatible with all devices

ASB - Frontend Developer (React)

- Developed a stable React js code base, implementing standardized technical solutions to resolve bugs and improve maintainability
- Utilized **JavaScript, TypeScript, Hooks and Redux** throughout development phases
- **Integrated APIs** and third-party services to enhance web application functionality and streamline development.

## ACHIEVEMENT

---

- **On The Spot Award** In appreciation of my outstanding contribution to the organization
- **Elevate Wings Award** Got Special Incentive for clearing Wings-1 Program

## PROJECTS

---

### Money Mode Exchange System

Built a platform where users can connect to exchange money (e.g., cash to online transfers) securely between themselves. | **Technologies Used:** HTML, CSS, JavaScript, SQL

### Twitter Sentiment Analysis

Created a tool to analyze and classify tweets into positive, negative, or neutral sentiments, providing insights into public opinion. | **Technologies Used:** Python, Machine Learning, HTML, CSS

## EDUCATION

---

United College of Engineering and Research

Bachelor of Technology in Computer Science Engineering

Prayagraj, India

Aug 2017 – Aug 2021
